Beschrijving

Transformer 0,5VA 230V 2x12V 2x21mA

Features

- Winding of double coated copper wire for better insulation, vacuum casted, two chambers
- Connections for PCB use

Technical Specifications

- Temperature Resistance Class1): Ta 70/B
- End Temperature in Case of Short Circuit, Max2): 175°C
- End Temperature in Standard Use: 120°C
- Permissible Overtemperature3): 50K
- Primary Voltage (50/60Hz): 230V AC
- Performance, Max. (Ta 70/B)2): 0,5VA
- Test Voltage: 4kV/50Hz
- No-Load Voltage (According to VDE 0570): <2 x UN sec

Artikelnummer	2120005M
Merk	HAHN
Is on Sale	Nee
