€ 99,00

Excl. BTW: € 81,82

### Afbeeldingen

### Beschrijving

Affordable mono mixer amplifier with digital echo. The product features four channels. Each channel has an input for a balanced line microphone via a 3 pin XLR or a line input via 6.35mm mono jack and the following controls, high, low, reverb level, 20db attenuation and overall channel level control. Other inputs include a stereo input via 6.35mm mono jacks or phones with controls for high, low, reverb level, 10dB attenuation and overall level. The product further features master reverb and delay control, headphone output with level control, phantom power, bar graph level indicator, record out, aux out and overall level control. Output to the speakers is via 2 x 6.35mm jacks. Supplied in a metal case with carry handles.
