## Product description

The Rechargeable Headlamp HD800RS from Ansmann is a high-quality headlamp. This headlamp uses two different LED lights, making the lamp suitable for many applications. There is a sensor function on the lamp so that you can switch the headlamp on and off with hand gestures. The maximum light range is 80 meters with a lumen of 800. The lamp head can be tilted up to 50 degrees.

The headlamp has a rechargeable Li-ion battery pack that is charged in 4 hours by means of a supplied USB cable. When the battery pack is fully charged, you can use the HD800RS headlamp for up to 10 hours.
