Features

- High quality lubricant for fitting of parts of different materials. Odorless and long lasting. Non-conductive.
- Forms a colourless, non-hardening film, eliminating squeaking, binding and sticking.
- Penetrates quickly.
- Displaces and seals out water and moisture.
- Protects metals and alloys, plastics and rubbers.
- Safe on most rubbers, plastics and coatings. (Test on sensitive or stressed materials before use).
- Functional over a wide temperature range: -40...+200°C.
- Convenient 360° (including inverted position) spray valve for aerosols.
- High purity CO₂ propellant, giving an active product content of 95%.
