Beschrijving

The Pi-Box Pro 5 is a rugged industrial enclosure kit for the Raspberry Pi5. By utilising our Micro HDMI Pi5 extender board we can turn the power and Micro HDMI connectors through 90° so the they are on the same plane as the Ethernet and USB connectors. The rear panel is made from 3mm acrylic and allows for communication via Bluetooth and Wi-Fi signals from the Pi4. The standard version allows for access to the SD Card from the assembled enclosure.

- Rugged industrial enclosure kit
- Micro HDMI Pi5 extender board
- Rear panel is made from 3mm acrylic
- Allows for access to the SD Card from the assembled enclosure

Toepassingen

Computer Hardware, Education, Hobby & Education, Consumer Electronics, Industrial, IIoT (Industrial Internet of Things), Domestic, Public, Automotive Systems

Inhoud

1x Extender Board; 1x Carrier Plate; x1 E-Case B Extrusion; 1x Aluminium End Plate; 1x Acrylic End Plate (For WiFi & Bluetooth); 1 set of Screws & Fixings; Pi-Box Pro 5 heatsink kit also includes: Heat Blocks, Heat Transfer Pads & Screws

Voetnoten

Heat Sinking Kit consists of 2 aluminium blocks and adhesive pads that transfer the heat from the processor and the Ram chip to the aluminium carrier plate and then out to the enclosure, making the whole assembly a heat sink.

Geleverd exclusief Raspberry PI board
