Beschrijving

Super-bright IP65 rated Digital RGB flexible ribbon LED tape with 30 x 5050 LEDs per meter on a white PCB. The tape is extremely thin with an epoxy resin coating to protect the tape. With a depth of just 4 mm and only 14.5 mm wide it will fit into many unusual places. Supplied on 5 m reel with a 3M self adhesive back, this tape is easily applied to most smooth surfaces by simply removing the backing paper. The LEDs produce a wide 120 degree glow which gives a reflected glow similar to that of neon. The tape can be cut or joined, with cutting points at at 3 LED (50 mm) intervals. The tape is highly flexible and has a low power consumption making it ideal for many uses such as homes, vehicles, shops, bars and nightclubs.

MCD/Lumen/M 86000-96000 mcd

30 Ultra Bright LEDs per metre

IP Grade - IP65

9 W per metre

1334 mA per metre
