1000W Pro Fog Jet Generator

The Z-1020 is an advanced fogger, designed for special purposes and applications where you can't use a normal fogger. The Z1020 can be mounted on the ground to spurt fog upwardly to have a column of smoke effect, or it is possible to mount this unit against the wall to create an atmospheric effect. The Z1020 can be controlled with the included remote control, or with each DMX-512 controller.

Power: AC240V/50 Hz

Output: 10.000 cu. ft/min
(283 m³/min)

Tank Capacity: 2,5 L

Fluid type: Fog Fluid
