Beschrijving

Transformer 0,35VA 230V 12V 29mA

Features

- Winding of double coated copper wire for better insulation, vacuum casted, two chambers
- Connections for PCB use

Technical Specifications

- Temperature Class1): Ta 70/B
- End Temperature in Case of Short Circuit, Max 2): 175°C
- End Temperature in Standard Use: 120°C
- Permissible Overtemperature3): 50K
- Primary Voltage (50/60Hz): 230V AC
- Power, Max. (Ta 70/B)2): 0,35VA
- Insulation Voltage: 4kV/50Hz
- No-Load Voltage (According to VDE 0570): <math>< 2 \times UN \text{ sec}</math>

Productinformatie

Artikelnummer	1120003M
Merk	HAHN
Is on Sale	Nee
