Beschrijving

The DMX 29 is a high quality dynamic microphone recommended for hand-held or stand-mounted use by gigging vocalists. It features a wide, flat frequency response for uncoloured audio reproduction. It has extremely high gain before feedback. The ability to withstand high sound pressure levels makes it suitable for singers and musical instruments.

- Supercardioid polar pattern with a wide, flat frequency response for uncoloured sound

- Rugged construction with On/Off switch

- Safety anti-roll ring

Connectors 3-pin XLR male

Impedance (Ohms) 600

Sensitivity (dBV/Pa) -52

Frequency Response (Hz) 50 - 16000
