**Beschrijving**

---

Features

- Reed switches without moulding case
- No power-required sensor for low power applications
- No external power required for sensor operation
- For example: automotive und telecommunication applications

Switching Capacity, Max. W: 100  
Switching Voltage, Max. Vdc: 1000  
Switching Current, Max. A: 1,0  
Carry Current, Max. A: 2,5  
Contact Resistance, Max. mW: 150  
Breakdown Voltage, Min. Vdc: 2000  
Initial Excitation AW: 15..70

## Productinformatie

---

Artikelnummer	MK2385C2
Merk	MEDER
Is on Sale	Nee
