Beschrijving

The range Serie 180 is intended for electronics and telecommunication oriented or electrical equipment which can be installed in 19" racks built to DIN 41 494 and IEC 60297-2. Its easy assembly and optimum accessibility allows a quick mounting of internal components.

Main characteristics: Height: 1, 2 and 3 U/HE. Depth: 260 and 360 mm. Mounting: with ten M4 screws (eight for 1 U/HE). Front and rear internal supports for the mounting of trays or circuits.

Supply: mounted, optional handles.

Finish: Front panel: made of 3 mm thick aluminum sheet, silver or black anodized. Frame: 1 mm thick steel sheet, epoxy painted similar to RAL 9002.
