Beschrijving

This ultrasonic generator produces very loud and aggressive ultrasonic sounds pulsating like a siren, which many animals perceive as extremely unpleasant and, therefore, try to avoid them as far as possible (very often, but not always!). The generator should be used to keep away rodents, insects, crawling parasites, game and birds. If larger areas shall be exposed to ultrasound up to 2 additional loudspeakers LO20 may be connected (not enclosed). The audio frequency may be adjusted between ultrasound (not audible to men) and loud + high sounds that are audible to men.

Technical Data

Operating voltage 12 - 14 V/DC (stabilized power supply or 12 V accumulator > 12 Ah)

Current consumption max. 150 mA

Adjustable frequency range approx. 7 kHz - 38 kHz. Pulsating like a siren

LED display one LED each for „Power On“ and „Sound Emission“

Connections for up to 2 additional loudspeakers LO20 (not enclosed)

Acoustic rangemax. 100 m, may be extended with additional loudspeakers L020 | Acoustic pressure
LoudspeakersHigh-power ultrasonic loudspeakers with plastic membrane

Dimensionsapprox. 140 x 65 x 37 mm

Productinformatie

Artikelnummer	M175
Merk	Brand
Is on Sale	Nee
