Features

Winding of double coated copper wire for better insulation, vacuum casted, two chambers
Connections for PCB use

Technical Specifications

Temperature Resistance Class1): Ta 70/F
End Temperature in Case of Short Circuit, Max2): 190°C
End Temperature in Standard Use: 140°C
Permissible Overtemperature3): 70K
Primary Voltage (50/60Hz): 230V AC
Power, Max. (Ta 70/F)2): 1,5VA
Test Voltage: 4kV/50Hz
No-Load Voltage (According to VDE 0570): <2 x UN sec

1,5VA 230V 2x6V 2x125mA
