

**SOLDEERTIN 500GR 0.7MM SN95AG4CU1 VLOEIMIDDEL 3,0%  
HALOGEENVRIJ**

**€ 135,00**

Excl. BTW: € 111,57

**Afbeeldingen**

**Beschrijving**

Halide-free activated  
developed to cope with the higher process temperatures at lead-free soldering  
very low spitting of flux  
with micro doted alloys for the low solder tip consumption  
High activity, good spread and high residue reliability  
Flux residues - can be left on the PCB  
Hand and robot soldering  
Electronic and Electrical industry

**Technical Specifications**

Melting Point: 217°C  
Flux Type (IEC 61190-1-3 RELO): 1.2.3.B  
Flux Content (EN 12224): 3%  
Corrosive Effects (DIN 8516): None  
Alloy(FLOWTIN TSC): Sn95Ag4Cu1/713  
Flux Core: 1 Core

## Productinformatie

---

Artikelnummer	SLV22/0705
Merk	STANNOL
Is on Sale	Nee
