Beschrijving

Features

- 150W Micro Heating Element
- Includes "i-Tool" soldering tool
- Ultra Fast Heat up
- Ultra Fast Heat Recovery Time
- Process Window Alarm Function
- ASM - Automatic Standby Motion Sensor
- Calibration of i-Tool itself, independent from station
- Thinnest & Lightest Cable for Maximum Comfort
- One Touch Easy to Use Operation with new i-Op Control
- Ultra Large, Multi-functional Display
- Small footprint
- Automatic Tool Detection

Technical Specifications

Soldering Station

Supply Voltage: 220...240V / 50Hz

Secondary Voltage: 24V AC

Power Rating: 80W

Control System: i-TRONIC, SENSOTRONIC

Temperature Range, Variable: 150...450°C

Function Display: LCD Display, Blue

Lead: 2m PVC with Connector

Version: Protective Insulation, Antistatic

In Accordance with MIL-SPEC/ESA Standard

Soldering Iron \"Micro Tool\"

Voltage: 24V AC

Heating Performance: 150W

Heat Up Time, Approx.: 9s on 350°C

Soldering Pin: 0102CDLF16

Weight (Without Lead). Approx.: 30g

Lead: 1,5m High Flexibility

Heat Resistant, Antistatic

Version: Antistatic

In Accordance with MIL-SPEC/ESA Standards

Productinformatie

Artikelnummer	IC1100A
Merk	ERSA
Is on Sale	Nee
