Beschrijving

The DAP UREC-180BT is a 1U USB player recorder with a Bluetooth module. The ideal solution for bands, Dj's and audio engineers. It can be used to play pause music as well as recording the gig. Please note that due to the USB/SD card functionality the record button always has a 3 sec delay as it needs to search the right source. It is equipped with backlit buttons which makes operation convenient in poorly lit environments. All important functions can also be controlled by the included ir remote. The built-in Bluetooth module has an wide range over 25m (depending on the environment circumstances) and the possibility to control - pause forward and rewind- of the connected device.
