Beschrijving

Discover® AGM Series VRLA Industrial Batteries provide superior high integrity and reliability for commercial, industrial, and private applications. The maintenance-free Valve Regulated Lead Acid (VRLA) construction make Discover® Standard AGM Series Batteries the definitive choice for broadband and CableTV (CATV), Uninterruptible Power Supplies (UPS), telecommunications, and electronics and security applications.

Tank formed lead-tin-calcium plates deliver consistent dependable performance and promote long life.

Maintenance-free technology

99% gas recombination for extended life in float applications.

Multiple terminal, configuration options and carrying handles available with most models.

Classified as a non-spillable battery and is not restricted for transportation by:

Air (IATA/ICAO provision 67)

Surface (DOT-CFR-HMR49)

Water (per IMDG amendment 27).

Flame retardant ABS case and cover with UL94 VO rating available.

UL924 recognized flame arresting low pressure safety vents.

98% recyclable.

Up to 12 year design life in float service.
