

POLYURETHAAN 200ML

€ 13,50

Excl. BTW: € 11,16

Afbeeldingen

Beschrijving

Chemically crosslinked, transparent protective varnish based on polyurethane for high performance

After curing has a high chemical resistance to solvents and aggressive vapors

Protects circuit boards and surfaces, even in extreme conditions

Drying time at 20°C: dry to touch in 20 mins., curing: 2...7 days

Temperature range: -40...+120°C

Dielectric strength: approx. 130kV/mm

Directly solderable for repair purposes

Productinformatie

Artikelnummer	K71-200
Merk	KONTAKT CHEMIE
Is on Sale	Nee
