Beschrijving

he InLine® USB3.0 dual head graphics adapter turns an available USB 3.0 port into one DVI or VGA port (DVI to VGA adapter included) and one HDMI output, with support for high-definition 1080p and 1920x1200 video and 5.1 surround

sound audio (from HDMI port only). The adapter delivers a convenient external video solution that makes it easy to add multi-monitor capability to a USB enabled desktop or laptop computer (optimal performance from USB 3.0, backward compatible with USB 2.0). The adapter delivers smooth, high definition content to multiple displays and can be used to mirror your primary desktop, showing the same image on each display, or to extend your desktop onto a second or third monitor to double or triple your workspace and increase your productivity.

ADVANTAGE:

- With two video output ports, the dual head design of the adapter offers a compact multi-monitor solution across both HDMI and DVI technology
- SuperSpeed USB 3.0 to HDMI/DVI conversion delivers improved bandwidth compared to a USB 2.0 connection for smoother high-definition video content
- The adapter is installed externally, through USB, which enables you to add graphics capability to your system without opening the case
- With Gigabit Usb Ethernet Adapter Function

FEATURES:

- SuperSpeed USB 3.0 (5 Gbps) Interface, backward compatible with USB 2.0
- Supports resolutions up to 1920x1200 (16:10) and 2048x1152
- Quick, easy installation
- Dual Head design supports both HDMI and DVI simultaneously (DVI to VGA adapter included for VGA monitors)
- USB-powered - No external power adapter required
- Choose between Mirrored, Extended or Primary display configurations
- Driver software supports display rotation
- Supports the Windows® Aero interface
- Supports 5.1 channel surround sound audio (HDMI only)
- Supports the use of up to 3 InLine® USB3.0 graphics adapters dual head on a single system (up to 3), for up to 6 additional monitors
- With Gigabit USB Ethernet Adapter Function
