Features

Dust proof, jet water-protected aluminum die-cast metal enclosure

With integrated sealed cover and stainless steel countersunk screws

Recommended for all regular clamping types and also as clamping enclosures due to the assembly of cams in the lower surface of the enclosure.

Offset assembly cams make the attachment of plates without pre-drilling possible.

Cams with lateral mounting rails contribute to a secure levitation rail attachment.

Cams are additionally attached to the inner surface of the cover.

All assembly cams are appropriate for machine screws.

Also suitable for wall assembly

Application

To protect electronics in tough environments

For external use

Everywhere, where high temperatures occur

Industrial sectors, e.g. car wash

Technical Specifications

Enclosure Material: GD Al Si 12

Sealing: Neoprene or Polyurethane-Foamed

90°C Heat and Chemical Resistant

Protection Class: IP66
