Beschrijving

IP20 independent transformer, for halogen lamps
12 V.

Class II protection against electric shock
following direct and indirect contact.

The transformer is supplied with cables on the
primary and secondary circuits.

If input cable is damaged, only authorized
personnel must substitute it.

Excellent operating reliability at very high
temperatures.

Ultra compact size.

Easy assembly and installation.

Protections:

- against overheating and short circuits.
- against mains voltage spikes.
- against overloads.
