Beschrijving

The Prem-I-Air oscillating Power Fan is ideal for large offices and spaces within the home. The vortex inducing action coupled with the large blade area make this the ideal solution for moving large volumes of air whilst minimising noise and unwanted ripple effects. The product features a three position speed control, height adjustment, oscillation, adjustable head, sturdy weighted base and also benefits from a robust construction for a longer usable life. The fan has a handy 7 hour timer and has the benefit of a remote control for your convenience.
