Beschrijving

Features:

- Industrial chip (Dual power + Triple-core chip)
- High-precision
- Anti-interference
- Embedded installation
- Reverse connection protection
- LED display

Description:

Digital Thermometer
Display color: Red/Green/Blue
Temperature range: -30-800°C
Refresh rate: 4 times / sec
Temperature measurement accuracy: $\pm 0.3^{\circ}\text{C}$
Temperature probe: K type thermocouple(Thread:M6)
Supply voltage: DC 12V
Dimensions: 48 x 29 x 23mm
Embedding hole: 45.5 x 26mm
Display window: 35 x 18mm
Case color: Black

Package Included:

- 1 x LED Digital Thermometer
- 1 x Temperature Sensor Probe
- 1 x Connection Cable
