Beschrijving

The DAP HP Series consists of 5 models, representing output powers from stereo 200W until 1400W RMS at 4 ohms. All including the best protection circuits, built in a strong solid housing with forced air-cooling to achieve many years of reliable power. They are the best mobile choice for musicians, DJs, and entertainers but also perfect for installations in discos, pubs or any kind of public areas.

The HP-1500 and HP-2100 are the mid-range of the DAP Audio HP power amplifier series and are ideal for medium-sized events and clubs. Both with sufficient output to provide the audience with powerful basses and impressive highs.

- Full protection circuits
- Efficient forced air cooling
- Stereo & Bridge mode

	Not Allowed
	2x 1000 Watt RMS
	2x 700 Watt RMS
	Not Allowed
	Not Allowed

	1x2000 Watt RMS
	10Hz – 20KHz, +/-1dB
	<0.5%
	>100dB A-weighted
	>75dB
	>250 8 OHM
	34.5dB
	0,85V (+/-1dBv)
	20kOhm balanced, 10kOhm unbalanced
	Stereo / Parallel / Bridge
	Class H
	Clip Limiter (Fixed)
	Short Circuit
	Overheat
	Overload
	DC Voltage
	Forced-air by axial fan
	Front to side
