Features

- Winding of double coated copper wire for better insulation, vacuum casted, two chambers
- Connections for PCB use

Technical Specifications

Temperature Resistance Class:	Ta 70/B
End Temperature in Standard Use:	120°C
Permissible Overtemperature ²⁾ :	50K
Primary Voltage (50/60Hz):	230V AC

Power, Max. (Ta 70/B) ¹⁾ :	4,5VA
Test Voltage:	4kV/50Hz
No-Load Voltage (According to VDE 0570):	<2 x U _{Nsec}

¹⁾ Taking into Account the Indicated Temperature Resistance Class, ²⁾ At 70°C Ambient Temperature
