

TRANSFORMATOR 0.35VA 2X12V 2X12MA

€ 4,38

Excl. BTW: € 3,62

Afbeeldingen

Beschrijving

Features

- Winding of double coated copper wire for better insulation, vacuum casted, two chambers
- Connections for PCB use

Technical Specifications

Temperature Class ¹⁾ :	Ta 70/B
End Temperature in Case of Short Circuit, Max ²⁾ :	175°C
End Temperature in Standard Use:	120°C
Permissible Overtemperature ³⁾ :	50K

Primary Voltage (50/60Hz):	230V AC
Power, Max. (Ta 70/B) ²⁾ :	0,35VA
Insulation Voltage:	4kV/50Hz
No-Load Voltage (According to VDE 0570):	<2 x U _{N sec}

¹⁾ The Maximum Permissible Continuous Ambient Temperature Applies in the Event of Short-Circuit, ²⁾ Taking into Account the Indicated Temperature Resistance Class, ³⁾ At 70°C Ambient Temperature

Productinformatie

Artikelnummer	2150003M
Merk	HAHN
Is on Sale	Nee
