Features

- Enclosures in black made of ABS plastic, UL94V-0 (flame-retardant)
- Ideally suited for mounting printed circuit boards
- Two sets of vertical 1.5 mm (0.062") PCB guides are molded into the front and rear halves of the housing
- Front and rear panels are made of 1.6 mm (0.064") brushed aluminium with protective paper on one side.
- Meets protection class IP54
- Integrated horizontal PCB mounting on Eurocard centers
- Cover and body base secured with M3 x 0.5" x 10 mm (0.39") Phillips machine screws screwed into brass threaded bushes
