Features:

- Mobile APP control, connected to the network via WiFi, remote control at any time.
- Support for Amazon Alexa and Google Assistant; breaking the traditional alarm must be equipped with the host or gateway barrier, the installation is simpler.
- Free APP: You will receive a notification if there is a leak.
- View the switch status of the detector through the mobile APP. Allows users to easily connect to the detector from anywhere via the Internet, monitor directly via Wi-Fi, and monitor front-end alarms in real time via the APP.
- This smart sensor is only available for 2.4G Hz Wi-Fi routers.

Specifications:

Battery: AAA1.5V x 2 (not included)

Standby current: $\leq 5\mu A$

Protocol: IEEE 802.11b / g / n wireless range: 50 meters

Working temperature: -10 °C ~ 40 °C (14 °F ~ 104 °F)

Working humidity: 20%~85%

Storage temperature: -10 °C ~ 60 °C (14 °F ~ 140 °F)

Storage humidity: 0%~90%

Standby time: 6-10 months

Wireless type: 2.4GHz
