Beschrijving

Features

- Independent PWM dimming controller for 12V or 24V single color LED lamp
- Output dimming by a potentiometer (150kOhm) or 1...10V signal
- Light output dimmable 0...100%
- Over load, short circuit and over voltage protection

Technical Specifications

Input Voltage:	12V DC/40W, Max.
	24V DC/80W Max.
Output Current:	3,33A
Operating Temperature:	-20...+35°C
