Beschrijving

The Testboy TV 431 Digital Insulation Measuring Instrument permits easy inspection of the insulation resistance of appliances, electrical systems and switchgears. Four selectable test voltages are available here for particularly informative measuring results. The area of application is substantially extended through the possibility of conducting AC, DC, continuity and resistance measurements.

How you benefit

- Inspection with four selectable test voltages (250 V, 500 V, 1000 V, 2500 V)
- Continuity test
- DC and AC voltage measurements

Specifications

Technical Data TESTBOY TV 431

Display: Large LC display with bar graph indication

Power Supply: 6 x 1,5 V C LR14

Weight: 1245 g

Colour: Red/black

Scope of delivery: Incl. Measuring line set and ever-ready bag

Productinformatie

Artikelnummer	TV431
Merk	TESTBOY
