Beschrijving

Construction

Vacuum encapsulated, bobbin with two chambers
Leads through soldering pins to accommodate PCB mounting
Designed to match VDE 0570 and EN61558 regulations
Fully tested at primary and secondary voltage of 6000V, leakage and sparking distance in air is at least 10mm
Types with double primary and secondary windings (2x115V) suitable for application in 115V as well as 230V power supplies

Dimensions: (lxBxH)33,4x28.9x14,5mm

Input: 230VAC

Productinformatie

Artikelnummer	2120001MLP
Merk	HAHN
Is on Sale	Nee
