Beschrijving

The ANSMANN USB charger with a USB port and 18 W of power offers the ideal charging solution for your application. Thanks to the intelligent charging control and Multisafe technology, your application is charged optimally and safely. The very low standby consumption makes this charger not only efficient, but also economical.

Qualcomm Quick Charge 3.0

Fast and efficient charging technology that allows compatible devices to be charged up to 80% in 35 minutes. The device is backwards compatible with Qualcomm Quick Charge technology 1.0, 2.0 & 3.0, providing top reliability.
