Excl. BTW: € 24,75

### Afbeeldingen

### Beschrijving

The InLine® Wi-Five Wireless Media Center combines five functions in a single device:

1. Music streaming

2. Data streaming
3. Access Point
4. Repeater
5. Router

Comfortable control with the free app \"CloudShare\" for Android and iOS.

1. Music streaming - play music via Wi-Fi Smartphone / Tablet / PC / Laptop to your home stereo via the 3.5mm jack output. For Android devices you use this free app named CloudShare, on iOS devices either the free app CloudShare or any other audio player. For Windows / Mac OS computer you can use iTunes for wireless music transmission.
2. Data streaming - transfer data such as audio / image / video files or documents from USB storage media on Smartphones / Tablets or you dub from smartphones / tablets to the media via Wi-Fi. Beyond that you can play existing audio files even on the USB storage medium on your stereo, without having to transfer previously. With USB port you can also charge your Smartphone / Tablet (5V, 1A).
3. Access Point - create your own hotspot. Provide multiple devices access via Wi-Fi.
4. Repeater - extend the range of your existing wireless LAN by using the InLine® Wi-Five for signal amplification.
5. Router - use this function to access the internet on the go or use internet access for multiple devices (requires xDSL modem)

Supported file systems of connected USB storage: FAT16, FAT32, NTFS, EXT2, EXT3 und EXT4

Supports: iOS 5.0 / MacOS 10.8 / iTunes 10.1 / Android 2.3 / Windows 7 or higher
